

AFA FISH TAGGING

For this program's success, we are reaching out to all "ANGLERS to JOIN IN and help the AFA collect valuable information that will benefit the Lake Almanor fishery.

AFA will tag fish Annually (browns/rainbows). Each year the tags will be a different color with a 4-digit number and a phone number. You may enter information online at Almanorfishingassociation.org or you may call 530-284-0861. You can report a tagged fish whether you keep it or release it.

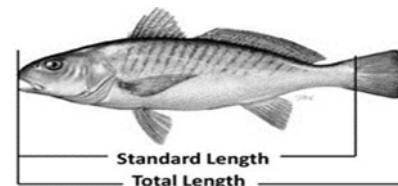

All reporting parties will be entered into a drawing in December.

10 winners will be drawn...Need not be present to win.

Tips for providing the best information when you report a tag:

- **Be Alert !**
- **Get the tag number!** You don't have to remove the tag if you're going to release the fish alive, just write down the tag number or take a photo.
- **Measure the fish !** Total Standard Length; from the tip of the snout to the end of the fleshy part of the tail.
- **Report each tagged fish caught separately.**
